Bethlehem, PA 18015

**Re: IESI – Bethlehem Landfill
Southeastern Realignment**

Dear Leslie:

Following up on last night’s Council meeting, please be advised that IESI PA Bethlehem Corporation (“IESI Bethlehem”) acknowledges that the existing Host Municipal Agreement between IESI Bethlehem and Lower Saucon Township applies to the Southeastern Realignment. IESI Bethlehem will continue to comply with the terms of that contract during the life of that project, and expects that the Township will do so as well.

Regarding waste relocation associated with the Southeastern Realignment, the waste that will be relocated from the western lined portion of the site (mainly, Cell 4E) will be done pursuant to the Cap Removal/Waste Relocation Plan. You will recall that questions regarding the waste relocation process were raised by Jim Birdsall almost two years ago, in his November 24, 2015 and December 14, 2015 review letters on the Special Exception Application for the Southeastern Realignment, and the Cap Removal/Waste Relocation Plan was revised accordingly. The revised Cap Removal/Waste Relocation Plan, as well as the site’s Nuisance Minimization Plan and Operations Plan, were submitted to and reviewed by DEP as part of the Major Permit Modification Application. Those documents are included in Form 14 of the application materials, and have been provided to the Township.

Very truly yours,

Maryanne Starr Garber
